MURPHY, the Jeweler.

Walker Robinson, colored, aged 89 years, died in Cincinnati yesterday. The body will be brought here today and the funeral will take place tomorrow morning at 10 o'clock from No. 31 East Second street, Rev. Gorham conducting the services. Interment in Maysville Cemetery.

With the holiday season approaching, Colonel Dan Perrine wants the public to know he is in business, and at his store in West Second street has one of the finest lines of jewelry ever seen in this city. Together with the staple goods he has all the up-to-date novelties, on which his prices will be found just right.

Mike Brown, the genial Junior of the firm of Klipp & Brown, has just returned from the World's Fair. While in St. Louis, and during one of his somnambulist stunts, he was relieved of his wad of money. For a time Mike was in a terribly perturbed state of mind, grieving over his misfortune, but a smile of satisfaction puckered about the corners of his cherubic mouth when the money was returned by the joker, who was one of his friends of his own party.

The Mayor's office had the appearance of a juvenile court yesterday. Twelve boys whose ages ranged from 10 to 17 years were up before Judge Whitaker charged with disorderly conduct. They had annoyed Mrs. Daniel, who is proprietor of a grocery in East Second, by spitting tobacco juice on her pavement and building a fire close to her residence and place of business, and doing other naughty things. They were let off with a severe reprimand, and that their parents administer corporal punishment for the offense committed.

CLOSE SHAVE

Somebody Mistook Captain Cummings For a Bold Burglar

Saturday night Mr. Richard Dodson endeavored to enter his store in East Second but could not gain an entrance owing to the latch of the door catching in some way which prevented the door from opening.

He sent Captain Cummings to the rear to enter by way of a window. Cap having placed a ladder against the wall was about to enter a second story window when two pistol shots rang out and the balls cut close to the Captain's red locks. He managed to fall inside the building, where he lay on the floor for a time recovering from his fright and thanking his lucky star for his narrow escape.

Somebody evidently took him for a burglar and tried to wing him in his after dark ascension. Cap says the balls from the gun came too close to be comfortable, and that he does not desire another such experience.

Mabel, daughter of Mr. and Mrs. Simon N. Crowell, who has been ill with tonsillitis the past week, is able to be out.

Last evening was regular meeting night of the Board of Education, but owing to absences they could not muster a quorum.

The friends of Miss Gertrude Muse will be glad to hear that there is a decided improvement in her condition this morning.

MRS. SOPHIA BODEY.

After a long illness, due to the infirmities of old age, Mrs. Sophia Bodey died at 9 o'clock yesterday morning at her home East of Aberdeen.

She was born in Germany November 16th, 1818, and was consequently nearing her 86th year.

At the age of about 14 she came with her parents to Maysville; and upon her marriage a little over 60 years ago she moved to the home where she reared a large family and where she passed away.

Her entire life had been one of devotion to those depending upon her, and to kind ministrations to all who needed help.

Her husband died many years ago; but she leaves eight children to mourn their irreparable loss—Mrs. Anna Hamlin of Covington, Miss Mary Bodey of this city, Henry who resided at home, Mrs. Lena Cronin of Seattle, Washington, Miss Lizzie and George who resided with her, John of Aberdeen, and Mrs. Sophia Clark of Garden Plain, Ill.

The funeral will occur from the home tomorrow afternoon at 1 o'clock, sun time, with services by the Rev. W. F. Martin, and the interment will be in Charter Oak Cemetery.

SAT DOWN ON HIM

How a Decent Candidate Paralyzed a Ward Bummer

From now on until the Primary election is over is the harvest time of the bum—and they are as plentiful just now as flies around a molasses barrel in July.

They are as arrogant in making demands of their victims as the candidate is submissive.

The bum seldom gets the mackerel eye or icy stare; it is the cola of the realm that generally falls into the palm of his hand.

There are exceptions, however, and the other day when one of these parasites approached one of the handsomest candidates before the people and with a familiarity that breeds contempt slapped him on the shoulder with a—"How are you, old boy?" and in the next breath "Say, old man, the boys over yonder sent me over to get a dollar; they are dry and want to get a half gallon of whisky."

The candidate with a back bone and a stiff upper lip almost turned the bum into a frozen image when he replied—

"You go back and tell the gang that I am out of business in that line just at present, and if it's whisky they want they will have to hunt some other goose to pluck."

This was not what the gentleman of leisure expected and it ruffled his feathers, and with a parting salute threatened the candidate what they would do to him at the polls.

"Well," retorted the candidate, "You had better get in your work, for in the event of my election I will have every one of you fellows in the Penitentiary before another election rolls 'round."

That was a very good answer.

SOME EXTRA WORK

To Get a Proper Foundation For Uncle Sam's Building

Clark & Howard, Contractors for the construction of the United States Postoffice Building to be erected in this city, will eliminate the tank filling in basement and areas, and take out the brick-bat filling at the Northeast corner of the Building, so that the footings at that corner may rest upon the same strata of firm clay as shown at the other corners.

The City Engineer of Maysville, in a letter to the Supervising Architect, states that when the brick-bat filling is taken out of the Northeast corner, and the trenches there are filled in with concrete, the foundation walls of the new Postoffice Building will be absolutely secure.

The concreting in trenches is now 50% completed, and brick work in basement will be commenced shortly.

The Contractors, we understand, propose to push the work lively, right from the beginning, as the contract requires completion of the Building by September 1st, 1905.

The contract price is \$38,622.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
